
VINAY RAJA

Digital Product & Design Leader

Product portfolio ownership · Human-centred design · Platform transformation

Sydney NSW · vinayraja@gmail.com · +61 431 188 899 · linkedin.com/in/vinayraja

For this role vinayraja.com/jobs/mirvac

Digital product leader with nine years owning product strategy, roadmap and full lifecycle across a multi-product portfolio, including seven years at Director level inside a national residential developer. Built and ran a portfolio spanning customer acquisition, sales channel and post-settlement experience across web, native mobile and augmented reality, accountable for platform investment cases, prioritisation frameworks, partner-led delivery and measurable commercial outcomes. Postgraduate qualified at MIT in Innovation and Design Thinking, with a record of embedding human-centred design across marketing, sales, technology, customer service and construction operations.

PROFESSIONAL EXPERIENCE

Creative & Digital Experience Director

Digital Product & Experience · AVJennings, Sydney · April 2018 to September 2025

AVJennings was acquired by AVID Property Group and delisted from the ASX in August 2025.

Owned the digital product portfolio for a national residential developer. Accountable for product strategy, roadmap, prioritisation, discovery, partner-led delivery and post-launch optimisation across products serving customers, the sales channel and residents.

Portfolio and platform ownership

- Ran an eight-platform CMS evaluation with working demo builds, vendor product-team engagement and external reference checks. Built three five-year total cost of ownership scenarios and took the recommendation through to board-level approval.
- Moved feature delivery from one to two releases per year to five to six per month on the same retainer envelope by attacking platform run cost. A six times faster deployment cycle, and a structural shift from a stagnant asset to a compounding one.
- Cut hosting cost by 90 percent, from \$5,000 to \$500 per month, migrating from a monolithic Sitecore stack to headless Storyblok with a Next.js front end.
- Governed a \$390,000 delivery through an external build partner under a RACI, steering committee and risk register. Launched on a non-negotiable date, inside budget, avoiding a \$60,000 licence extension cost.
- Applied a Good, Better, Best prioritisation framework to every feature decision, shipping at Good where a feature could earn its way to Better after launch.
- Retired the augmented reality app in 2022 once adoption data showed the install requirement was the binding constraint, and carried its interaction patterns and user flows into a browser-based implementation that reached a wider audience with no download.

Products owned

Masterbrand website and community subdomains **ACQUISITION**

101 percent increase in community enquiries. 0.22 second median page load, roughly 77 percent faster. 79 percent fewer rage clicks and 82 percent fewer dead clicks. 92 out of 100 SEO score. 100 out of 100 WCAG 2.1 AA, verified by the Centre for Inclusive Design.

Digital publications platform **CONSIDERATION AND NURTURE**

Ten-plus community publications replacing a national PDF brochure library. Over 60,000 page views and 12,000 unique readers, 4 minutes 46 seconds average visit time, 44 percent lower bounce rate, and five marketers publishing independently of engineering.

Augmented reality visualisation app **PRE-PURCHASE CONFIDENCE**

Native iOS and Android product letting off-plan buyers explore full-scale 3D homes from a floor plan, or place a home on their own vacant lot on site. Lean UX approach with iterative testing alongside the sales team, delivered with AR and 3D production partners.

Adaptive sales experience platform **SALES ENABLEMENT**

One product deployed across touchscreen, tablet, desktop and web feeds, built to carry immersive experiences alongside standard content. Sales consultants adopted the in-office deployment as their main customer conversation tool on the first day of installation.

Construction status tracker **POST-CONTRACT EXPERIENCE**

Twenty-stage build visibility with honest estimated timing, taken from service-design output through to a shipped website feature.

Investor Centre **SHAREHOLDER AUDIENCE**

Discrete listed-company section integrated with MUFG Pension & Market Services.

Lead capture block library **CONVERSION INFRASTRUCTURE**

Productised, reusable components deployed across the community portfolio.

Human-centred and service design

- Built the Land and Homes Service Blueprints, mapping five journey stages across seven layers, supplemented by an 18-milestone service flow with each touchpoint rated and sequenced into a prioritisation matrix and rollout roadmap.
- Traced a 2019 research finding, a communication black hole after contract signing, through 2023 service design to a 2024 shipped product feature. Discovery through validation to delivery and optimisation across a five-year arc.
- Worked the blueprint across customer service, marketing, sales, technology, construction and warranty operations, then designed the customer-facing artefacts that operationalise the standard at contract signing and handover.

Leadership and stakeholder engagement

- Led a multidisciplinary team spanning digital product, analytics and design, alongside external delivery and platform partners.
- Presented investment cases, platform recommendations and roadmap trade-offs to executive and board-level stakeholders.
- Built in-house creative and digital capability, reducing agency dependency and improving speed to market by around 60 percent. Award-recognised outcomes include a Brandie Award for Best Community Branding and Best Property Website at the International Property Awards.

EARLIER EXPERIENCE

Founder & Principal

Tydal Agency, Sydney · 2025 to present

Strategic creative and digital consultancy advising property and consumer organisations on brand, digital product and customer experience.

Co-Founder

Plasmatic, Singapore · 2025 to present

Open-source fintech payments platform built toward a commercial licensing model. Product positioning, digital experience and go-to-market.

Head of Creative Services, Asia Pacific

PageGroup, Singapore and Sydney · June 2014 to March 2018

- Led regional digital, brand and content capability across Asia Pacific for a global enterprise, supporting acquisition, engagement and retention across multiple markets and business units.
- Delivered large-scale digital programmes including the Salary & Employment Outlook and Future of Work platforms, and transformed a production-focused studio into a multidisciplinary, performance-oriented creative and digital function.

Co-Founder & Creative Director

Infigo, Melbourne and Singapore · December 2013 to June 2015

- Co-founded a mobile-first hospitality service product, leading product strategy, UX and iterative MVP development. Awarded USD 50,000 seed funding through the Start-Up Chile accelerator.

Marketing & Design Manager, Asia, Kobian (2011 to 2012) · Art Director, SWC (2008 to 2011)

CAPABILITIES

Product Multi-product portfolio strategy, roadmap ownership, discovery and validation, prioritisation frameworks, MVP definition, full lifecycle management, benefits realisation

Design Human-centred design, design thinking, service blueprinting, journey mapping, UX research, usability testing, accessibility to WCAG 2.1 AA, Figma

Data Google Analytics, Hotjar, Crazy Egg, A/B and multivariate testing, behavioural analytics, section-level engagement measurement, conversion optimisation

Platforms Headless CMS architecture, Storyblok, Sitecore, Next.js, WordPress, Webflow, native iOS and Android, augmented reality, Salesforce and Salesforce Marketing Cloud

Delivery Agile and hybrid delivery, partner and vendor management, RACI and steering committee governance, risk registers, total cost of ownership modelling

EDUCATION AND CREDENTIALS
