PROFILE

Digital product and operations leader with 15+ years turning relationship-led organisations into digital-first ones without losing the relationships that made them valuable. Seven years owning an enterprise digital experience platform end to end, spanning architecture, roadmap, delivery governance, user acceptance testing and post-launch accountability. Experienced translating specialist practitioner knowledge into products that non-specialist users actually adopt, across multi-market and matrixed stakeholder environments. Certified Marketing Professional (CPM), postgraduate qualified at MIT and Swinburne.

PROFESSIONAL EXPERIENCE

Founder & Principal Consultant

Tydal Agency, Sydney | September 2025 to Present

Strategic creative and digital consultancy advising organisations on brand, digital product and experience transformation.

- Advise leadership teams on digital platform direction, operating models and delivery governance, and run discovery that converts stakeholder feedback into prioritised roadmaps with clear acceptance criteria.
- Deliver brand, digital experience and platform work for clients including Ryan Maxwell Event, a producer of Chinese-Australian orchestral, choral and theatre programmes staged across both markets, covering site build, ticketed event campaigns and analytics instrumentation.
- Design and ship AI-assisted features on live production sites, including client work, focused on where they measurably reduce effort rather than where they demonstrate novelty.

Co-Founder

Plasmatic, Singapore | March 2025 to Present

Open-source fintech payments platform building toward a commercial licensing model.

- Shape product positioning, roadmap and digital experience alongside founders and engineers within an open-source contributor ecosystem.
- Guide go-to-market planning and early adopter engagement, balancing community expectations against commercial objectives.

Creative & Digital Experience Director

AVJennings, Sydney | April 2018 to September 2025

ASX-listed residential developer operating across Australia and New Zealand. Owned the organisation's digital experience platform and the in-house digital, creative and content function.

Platform Ownership and Transformation

- Owned the core digital experience platform end to end, spanning strategy, architecture, delivery, governance and ongoing evolution, treating the platform as a product rather than a project.
- Led the transition from a legacy Sitecore CMS to a modern headless architecture on Storyblok, addressing scalability, editorial flexibility and long-term sustainability.
- Owned release governance including test planning, user acceptance testing and go-live sign-off, and remained accountable for stability, incident response and optimisation after launch.
- Established governance frameworks covering user access and permissions, content workflows, quality assurance, accessibility (WCAG) and platform evolution.
- Orchestrated delivery through external technology partners and internal teams while retaining clear platform ownership and decision rights.

Roadmap, Cadence and Continuous Improvement

- Ran the prioritisation cycle with business stakeholders, maintaining the backlog and sequencing delivery against commercial objectives and capacity.
- Turned customer research, sales feedback and internal requests into requirements and user stories in partnership with UX, marketing and technology.

- Defined performance measures and used analytics, behavioural data and A/B testing to identify systemic issues and drive continuous improvement rather than one-off fixes.
- Led change communications around releases and incidents, so internal teams and customers understood what was changing and why.

Leadership, Stakeholders and Commercial Impact

- Built and led a small multidisciplinary team across digital, UX, content and creative, mentoring individuals and holding accountability for delivery standards.
- Partnered with executive leadership and state business units to align digital investment with commercial outcomes, operating with influence rather than direct authority across the group.
- Established in-house capability that materially reduced external agency dependency, improved speed to market and lowered delivery cost. Supported award-winning outcomes including a Brandie Award for Best Community Branding and Best Property Website at the International Property Awards.

Head of Creative Services, Asia Pacific

PageGroup, Singapore and Sydney | June 2014 to March 2018

FTSE-listed global recruitment group. Led the regional creative and digital function across Asia Pacific within a global matrix structure.

- Delivered large-scale benchmark reporting products including the Salary & Employment Outlook and Future of Work platforms, turning proprietary data into insight products used by clients and internal consultants across multiple markets.
- Transformed a production-focused team into a strategic multidisciplinary function, introducing structured workflows, service levels and quality standards.
- Operated across country leadership, regional marketing and global technology teams, aligning local needs with group standards while building and mentoring a distributed team across several countries.

Co-Founder & Creative Director

Infigo, Melbourne and Singapore | December 2013 to June 2015

- Co-founded a mobile-first hospitality service platform, leading product strategy, UX and iterative MVP delivery.
- Awarded USD 50,000 in seed funding through the Start-Up Chile accelerator programme.

Earlier Experience

- Owner and Creative Director, Visualcrave Studio, Singapore. Marketing & Design Manager, Asia, Kobian (2011 to 2012). Art Director, SWC, Singapore (2008 to 2011).
- Began as an interface designer for MTV touchscreen jukebox units and Qube Cinema systems, a 20+ year interface and product design lineage predating agency and in-house leadership roles.

CORE CAPABILITIES

Applied AI: AI-assisted features designed and shipped to live production sites, evaluation of where AI improves a decision versus where it adds cost, working alongside technical delivery teams.

Product and delivery operations: roadmap ownership, backlog prioritisation, sprint cadence and retrospectives, quarterly planning cycles, user acceptance testing and release sign-off, delivery playbacks.

Platform and data: headless CMS architecture, Storyblok, Sitecore, WordPress, Webflow, martech and CRM integration, Google Analytics, Hotjar, dashboard and reporting design.

Governance and integrity: user access management and standard operating procedures, incident and issue thematic analysis, content and release workflows, quality assurance, WCAG accessibility.

Member and customer experience: journey mapping, service design, discovery and requirements gathering, usability testing, engagement and feedback frameworks, voice-of-the-member representation.

Leadership and stakeholders: small team leadership and mentoring, vendor and delivery partner management, executive and board-level engagement, change and member communications, event delivery.

EDUCATION AND CREDENTIALS

Certified Marketing Professional (CPM), Australian Marketing Institute

Postgraduate Diploma, Innovation & Design Thinking, Massachusetts Institute of Technology (2020 to 2022)

Master of Design (Digital Media Design), Swinburne University of Technology (2013)

Diploma in Communication Design, LaSalle College of the Arts, Singapore (2007)

Mentor, Australian Marketing Institute mentoring programme. Referees available on request.
