SUMMARY

Senior digital and customer-experience leader with 15+ years connecting brand, digital product, data and customer journeys into systems that deliver commercial outcomes. A builder-operator: I create capability from scratch — teams, platforms, workflows and governance — and I work as comfortably in the systems and execution as I do with leadership. Seven years owning digital and CX inside an ANZ residential property developer, plus board-level and founder experience across fintech and early-stage product. Deeply hands-on with applied AI — from deploying it across a marketing function to now running an AI-integrated consultancy — with a commercial instinct for where it removes friction, sharpens insight and improves the customer experience.

WHAT I OWN WELL

- **Customer journey design** across acquisition, consideration, conversion, purchase and post-sale
- **Digital platforms & CMS** — headless architecture, migrations, lead capture, routing and conversion
- **CRM, lifecycle & growth** — database activation, automation, funnel optimisation
- **AI-integrated working** — agentic delivery, research, prototyping, content, SEO/AEO, driving tools via Claude Code
- **Performance & attribution** — analytics, A/B testing, dashboards linking activity to outcomes
- **Capability building & adoption** — driving systems and change across non-digital-first teams
- **Strategy and hands-on delivery** — executive engagement and rolling up sleeves in equal measure

PROFESSIONAL EXPERIENCE

Creative & Digital Experience Director — **AVJennings**, Sydney

Apr 2018 - Sep 2025

ASX-listed ANZ residential property developer

Built and led the in-house digital and customer-experience function across ANZ, owning the digital ecosystem end-to-end across the buyer journey.

- Built the in-house creative and digital capability from scratch — team structure, briefing and workflow systems, brand and UX governance — significantly reducing reliance on external agencies and cutting campaign turnaround from weeks to days.
- **Built AVJennings' owned digital lead-generation channel from the ground up.** The business had relied almost entirely on third-party real estate portals for buyer leads; I introduced and continually optimised direct lead-generation pages on the AVJennings site, growing the owned channel to **close to 20% of sales** — and set the platform roadmap to scale it toward **~50%**, steadily reducing dependency on (and the cost of) external channels.
- Owned end-to-end customer journeys from enquiry and lead capture through consideration, purchase and post-sale, designing digital pathways that improved enquiry conversion and buyer engagement.
- Led the redesign and migration from a legacy Sitecore CMS to a modern **headless architecture (Storyblok)** — partly a strategic move to future-proof the platform and own a greater share of buyer leads directly, alongside gains in usability, performance, content governance and lead routing.
- Embedded behavioural analytics, A/B testing and continuous optimisation across acquisition and conversion funnels; built reporting that linked digital activity to commercial outcomes.
- Championed and embedded practical AI within the **project marketing** function — introducing AI-assisted copywriting, automated email generation and task automation into everyday workflows. Accelerated campaign output and content consistency while freeing the team to focus on higher-value strategic work.

- Drove adoption of new systems and workflows across teams that weren't digital-first, so the business could self-serve while maintaining governance and quality.
- Supported award-winning work — **Best Property Website, International Property Awards; Brandie Award, Best Community Branding; Reader's Digest Marketing Awards.**

Chief Digital Officer & Board Member — **Plasmatic**, Singapore

Mar 2024 - Present

Early-stage fintech (advisory capacity)

- Shape product positioning, digital experience strategy and go-to-market for a regulated-adjacent, high-growth open-source payments platform.
- Partner with founders and engineers on product direction and customer experience; support investor-facing narrative.
- Provide board-level guidance on governance and the alignment of technology, customer value and growth.

Head of Creative Services, Asia Pacific — **PageGroup**, Singapore / Sydney

Jun 2014 - Mar 2018

Global recruitment group — Michael Page, Page Executive, Page Personnel

- Transformed a high-volume production studio into a strategic, multidisciplinary digital and creative function spanning multiple countries and business units.
- Introduced structured workflows and drove consistent adoption across markets, improving delivery efficiency and quality.
- Delivered large-scale digital programs (e.g. Salary & Employment Outlook, Future of Work) used across the region.

Co-Founder & Creative Director — **Infigo**, Singapore / Melbourne

2013 - 2015

- Co-founded a mobile-first hospitality service platform, building the product from zero — brand, UX/UI and product strategy end-to-end.
- Secured **USD 50,000 seed funding through the Start-Up Chile accelerator** (competitive, ~5% acceptance).

Founder & Principal — **Tydal**, Sydney

2025 - Present

Independent strategic consultancy advising on brand, digital product and customer experience — run as an AI-integrated practice, while pursuing a senior in-house digital and customer-experience leadership role.

- Operate an AI-integrated delivery model with AI woven through the day-to-day: research and competitive analysis, project management, content generation, and early-stage prototyping.
- Run agentic workflows through Claude Code — driving design and delivery tools including Figma, Framer and ClickUp programmatically to compress production timelines and deliver at a breadth that would typically need a small team.
- Apply both SEO and AEO (AI / answer-engine optimisation) — optimising not just for traditional search but for how customers discover brands through AI assistants and overviews.
- Prototype working concepts fast (interactive experiences, sites, tools), taking ideas from concept to a tangible, testable build in hours rather than weeks.

Earlier: Marketing & Design Manager, Asia — Kobian (2011-2012) · Art Director — SWC (2008-2011) · Owner/Creative Director — Visualcrave Studio.

EDUCATION & CREDENTIALS

- **Postgraduate Diploma, Innovation & Design Thinking** — Massachusetts Institute of Technology (MIT), 2020-2022
- **Master of Design (Digital Media Design)** — Swinburne University of Technology, 2013
- **Certified Marketing Professional (CPM)** — Australian Marketing Institute
- **Diploma in Communication Design** — LaSalle College of the Arts, Singapore, 2007

TOOLS & PLATFORMS

CMS & platforms: Storyblok, Sitecore, WordPress, Webflow, Framer · **Analytics & optimisation:** Google Analytics, Hotjar, Crazy Egg, A/B & multivariate testing · **CRM & martech:** Salesforce / Marketing Cloud, lifecycle marketing, martech stack planning · **AI:** Claude Code & agentic workflows, SEO/AEO · **CX & research:** journey mapping, service blueprinting, usability testing · **Design:** Adobe Creative Suite, Figma
